# 3-adic Collatz Stained Glass Visualization:

## *Voronoi Partitioning of the Inverse Map in Base-3 Logarithmic Spiral Space*

*Hiroshi Harada — April 25, 2026*

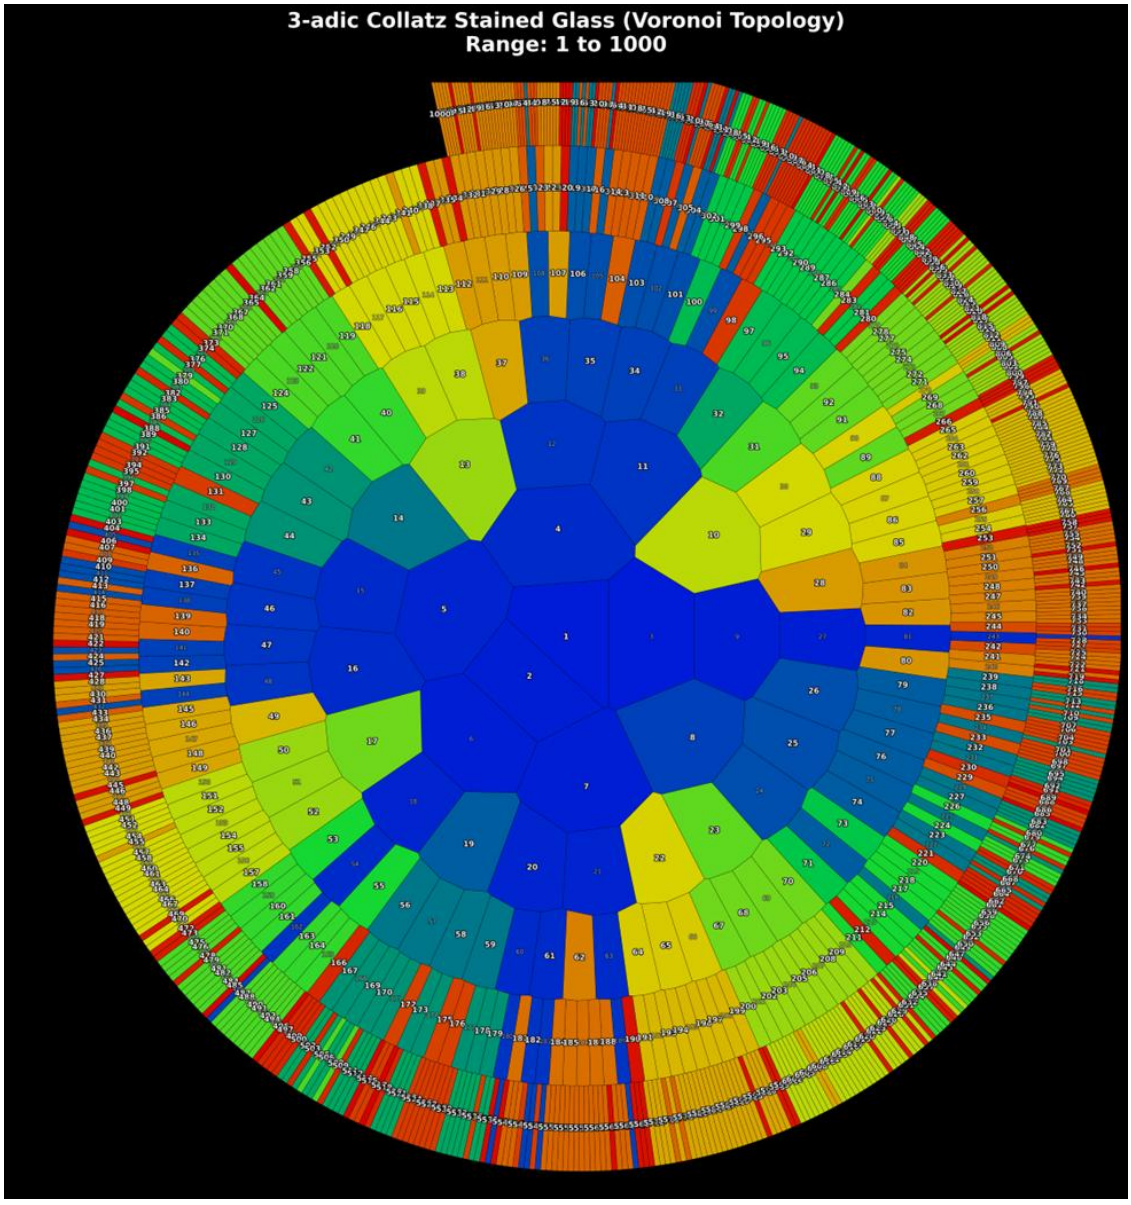

**Figure 1: Collatz-3 Stained Glass (N = 1000).**
A Voronoi tessellation of the inverse Collatz-3 tree mapped onto a Base-3 logarithmic spiral space. Cell colors represent the total stopping time (Gradient: Blue → Green → Yellow → Orange → Red).
